Objective:

I am a Software Developer with over 20 years of progressive experience in software, programming, design, training and end-user support. I am looking for a full time position (possibly remote) that requires a dedicated and experienced individual with exceptional customer service and communication skills.

Education:

- **Eleven Fifty Academy, Software Development Immersive Learning Program, Indianapolis, IN, October 2020**
 - 12-week immersive learning program for Software Development taught with industry-guided curriculum, real-world project-based learning, and 500+ hours of logged coding time and training.
- **New Horizons Computer Learning Center, Carmel, IN 2009**
 - Credentials: MCP, MCSA and CompTIA Security+
- **Andrews University, Bachelor of Business Administration (MIS), Berrien Springs, Michigan, May 1990**

Competencies & Functional Skills:

Problem solving, troubleshooting, creativity, visual communication, teaching, technical writing, customer service, critical observation and thinking, organization, Agile methodology, portfolio development, addressing and resolving business challenges.

Technical Skills:

Languages: C#, ASP.NET, API development, HTTP methods, MVC, pair programming
Testing Tools: Unit Testing
Databases: SQL Server, relational databases
Operating Systems: Windows, Linux
Office tools: MS Office (Word, Excel, Power Point, Outlook), MS Visio
Web Technologies: HTML, CSS, APIs, stateless components, session validation, responsive web design

Professional Experience:

Controls Specialist, Specified Lighting, Carmel, IN, Sept. 2017 – July 2020

Work Scope:

- Through manufacturer, online and self-training, remain current on the latest control equipment and material from various manufacturers; maintained the controls department schedule for completing project quotes
- Read construction drawings and documents to become familiar with bidding jobs in order to perform accurate takeoff and project estimates, import construction drawings and perform takeoffs for upcoming projects
- Maintain up-to-date information regarding control equipment/devices from various manufacturers in order to match the proper equipment for the particular job

Technical Support Representative (T2), Exacq Technologies, Fishers, IN, December 2011 – July 2017

Work Scope:

- Via phone and email, assisted customers, customers, dealers and installers worldwide with use of exacqVision hardware and software
- Wrote technical documentation for improving processes, addressing problems, and improving application development, assisted new employees in initial training and on-boarding
- Educated customers on proper networking technologies, how to mitigate potential issues, and what hardware and software they would need to meet business needs

Previous Work Experience:
